RASERALL AND RACING ARMIES OF GERMANY CHECKED BY FRENCH IN FIGHT AT BORDER

LONDON, Aug. 4.—Great Britain to-day sent a practical ultimatum to Germany demanding a satisfactory reply by midnight to-night on the subject of Belgian neutrality.

It is officially announced that Germany has declared war on Belgium. This announcement, following England's declaration that she would stand by Belgium, to protect the integrity of her territory, is accepted as foreshadowing speedy action by England.

The House of Commons to-day voted \$525,000,000 for emergency purposes and passed several bills in five minutes without a dissenting voice.

An order was issued this evening giving the government control of all the railroads in Great Britain.

Vice-Admiral Sir John Jellicoe to-day assumed supreme command of the British Home fleets, with the acting rank of Admiral. His Chief of Staff is to be Rear-Admiral Charles E. Madden. The new naval commander-in-chief took a prominent part in Admiral 5 Seymour's advance to the assistance of the Legations at Peking during the Boxer rising.

Two German Armies Invade France

PARIS, Aug. 4.—Germany declared war against France to-day, and the German army of invasion, which crossed the frontier from Metz at Mars et Tour, scene of the battle of Vionville during the Franco-Prussian war, was attacked by French troops.

Decisive fighting near the French border is only a question of hours. Already general skirmishing has taken place. The French attempt to invade Lorraine has proved abortive. The reports to the general staff indicate that the offensive move failed of its objective and the French troops have already retired back into their own territory.

The French fortress of Longwy is besieged. A good part of the Department of Meurthe et Moselle is already held by German soldiers and it is expected here that the advance will be directed against Nancy, where it is believed the French army has established its chief forward base.

German troops to-day cut the telephone and telegraph wires on French territory along the border.

The Germans crossed the French border at two points. They first entered Longlaville,

"Nations Would Force Us From Where God Put Us," Kaiser Tells Parliament

BERLIN, Aug. 4.—Emperor William opened the Imperial Parlianent in person to-day. He delivered an important speech from the 'hrone which was partly as follows;

"The present situation arose, not from temporary conflicts of interest or diplomatic combinations, but as the result of ill-will existing for

years against the strength and prosperity of the German Empire. "We are not pushed on by the desire of conquest. We are moved by the unbending desire to secure for ourselves and those coming after

us the place on which God has put us. "My Government and, above all, my Chancellor, tried until the last noment to prevent the worst happening.

"In enforced self-defense, with clear conscience and clean hand

"To the peoples and races of the German Empire my appeal gos forth to stand together fraternally with our allies in defense of that which we have created in peaceful work.

"Following the example of our forefathers, firm and faithful, carnest and chivalrous, humble before our God, and ready to fight when in face of the enemy, let us coufide ourselves to the everlasting Almighty,
